

Wallace- 9161L- Rocking Settee

Specifications:

Double the pleasure! Gentle rhythmic rocking motion can provide a calming effect, improve balance, reduce anxiety, ease arthritis pain. Take it to the next level with our unique double rocking chair, designed for modern elegance, comfort and safety. At 54" wide, our Wallace rocker promotes social interaction along with physical activity. Sit beside a friend, connect and share a relaxing experience together.

Along with a moderate rocking radius, the ergonomic filling of plush seat and back cushions provide the right support to enhance this experience. The seamless, open cube frame with elegantly rounded interior corners provides a continuous, supportive surround for a clean, streamlined look. As a thoughtful safety measure, our innovative, patent pending "Rock Stopper" is subtly integrated to prevent the chair from moving forward upon rising. This allows the user to put full body weight against the front of the arm as they exit the chair with confidence.

Engineered specifically with senior living comfort in mind, sitting, standing and relaxing are easily accomplished with ergonomic design and quality. Lumbar support, arm, seat height, pitch and depth assure healthy sitting posture. Also Available 9148L- Reid Rocking Chair.
