

Sedona - 8842L - Occasional Chair

Specifications:

This fully upholstered tub-like chair takes on a stylish, unique character. A prominent high back cushion in scooped V formation is a fresh take on a classic design. The plush rolled, supportive arm circles the outside back with continuous upholstery to a recessed base. The loose seat cushion is at just-the-right height for settling into or rising from this sophisticated chair.

Engineered specifically with senior living comfort in mind, sitting, standing and relaxing are easily accomplished with ergonomic design and quality. Lumbar support, arm, seat height, pitch and depth assure healthy sitting posture.

This chair incorporates Sound by Samuelson. Intense research and development have culminated our unique patented product, transforming our chairs into a fully capable Bluetooth speaker. Unlike typical gaming chairs, we do not use a commonly found directional firing speaker. Rather, we have turned the chair itself into the speaker for a fully immersive experience! ***US Patented**
