9211 - Ray - Sculpted Occasional Chair

Specifications:
Seating takes an artform in our mid-century creation. The sculpted frame makes a statement as it runs a continuous, seamless form that transitions gently throughout sweeping curves, uniting arms, back and legs for a minimalist profile. Tight seat and back cushion are constructed with proper density for comfort, posture and security while structurally connected to the frame. An organic silhouette is achieved as rounded open frame of arms and back connect to splayed legs. Beauty and function are found in equal measure.
