

Holden - 8838L - Lounge Chair

Specifications:

Personality, character and craftsmanship define this lounge chair. The front rail connects with arching side panels while a large sweeping detail connects the front and back legs, creating drama. Side panel inserts can be finished in any material including leather, vinyl, fabric and wood. The upholstered arms extend vertically from the seat deck and transition to cushioned arm pads for optimum comfort and leverage out of the chair. Tight seat and back are supportive for ease of entry and exit from the chair.

Engineered specifically with senior living comfort in mind, sitting, standing and relaxing are easily accomplished with ergonomic design and quality. Lumbar support, arm, seat height, pitch and depth assure healthy sitting posture.

Innovative Option:

CATCH by Samuelson provides a thoughtful solution to clutter in dining, public areas, and hallways. Our patented hardware suspends a folded walker, or any personal item, on the back of our chairs, creating more space and less confusion in common areas of the community. Manufactured from Stainless steel, offered in brushed stainless 113M and brushed brass 106M finishes. ***PATENTED**

Tilt by Samuelson is our solution to a common cleaning problem. Our discreet system allows the seat of our chairs to tilt forward, exposing a drop-through frame. We have thoughtfully engineered this hygienic system to facilitate a simple, single-step service.
