

## Betty- 8834L-H - Counter Height Chair

### Specifications:

Our hip chairs are specifically designed with a higher seat to reduce stress on joints, require less bending when sitting or standing, and eliminate risks of falling when entering and exiting the chair. Gracefully upholstered curved siderails give unique contrast to wooden arms and frame. A concealed pull up tab on the back of upholstered seat allows it to hinge open, enabling removal of crumbs or debris for hygienic maintenance.

Engineered specifically with senior living comfort in mind, sitting, standing and relaxing are easily accomplished with ergonomic design and quality. Lumbar support, arm, seat height, pitch and depth assure healthy sitting posture.

### Innovative Option:

CATCH by Samuelson provides a thoughtful solution to clutter in dining, public areas, and hallways. Our patented hardware suspends a folded walker, or any personal item, on the back of our chairs, creating more space and less confusion in common areas of the community. Manufactured from Stainless steel, offered in brushed stainless 113M and brushed brass 106M finishes. \*PATENTED

TILT by Samuelson is our solution to a common cleaning problem. Our discreet system allows the seat of our chairs to tilt forward, exposing a drop-through frame. We have thoughtfully engineered this hygienic system to facilitate a simple, single-step service.
